Communication student who has spent five years running things alone: a regulated live-animal export business and a content channel. I work on the part of communication that has to function rather than look good - documentation handover, internal messaging, and material a team can still use after the person who made it has left.

EXPERIENCE

Communications Intern

Mar - Jun 2026

Inclusion ASBL, Brussels

- Renegotiated the placement terms with the school and the organisation after the supervising lead resigned, then ran the communications function for the last month.
- Wrote an 8-page communication kit on brand rules and content production for non-specialists; the design rationale and AI guidance were adopted by the team.

Communications and Team Coordination Intern

Feb - Apr 2025

JayaUnited, Axis Parc

- Wrote the strategy for a conference aimed at employers, then executed the campaign in two and a half months with the founders largely absent.
- Coordinated two students through the build with no formal authority: set tasks, reviewed work, corrected where needed.

Founder, Live-Animal E-Commerce

2020 - 2025

Shrimpin'Fast, shipping across Europe

- Bred high-grade red crystal shrimp and shipped more than 450 orders across Europe, alone and as a registered business.
- Set the packaging and temperature standards for live animals in transit, and held the permit, carrier accreditation and shipment records required for export, including FASFC certificates.

Independent Content Creator

2019 - 2026

YouTube and Twitch, remote

- Built a video game guides channel to 30,000 YouTube subscribers and 10,000 on Twitch, earning between €1,800 and €2,250 per month at peak.

Community Manager Intern

Dec 2022 - Jan 2023

Era Cedimmo, Braine-l'Alleud

- Produced and scheduled content across the company's social channels, and answered client enquiries.

EDUCATION

Bachelor in Communication (in progress), ISFSC, Brussels · 2023 - 2026
